About This Game

Awarded "Top 10 Game of 2004" by Computer Games Magazine, Kohan II: Kings of War returns players to the dangerous beauty of Khaldun, where the brief respite in the timeless war between Light and Shadow has come to its end. Even as the world erupts in civil war, an ancient evil gives out a call, and the Shadow-touched begin to gather.

Set years after Kohan: Immortal Sovereigns, Kohan II: Kings of War raises the Kohan series to new heights, introducing gorgeous 3D rendered terrain, weather effects, diverse armies, and more, while still retaining the award-winning gameplay of the original games.

Key features:

Battle online with up to 8 rival generals in a variety of multiplayer scenarios.

Random map generator and map editors to customize your own maps.

Single-player campaign mission.

Six distinct warring races and five rival political factions.

Streamline Unit Management: Kohan's revolutionary unit command system keeps your focus on combat and conquest.
